

Chapter Outreach Program now open!

Set your chapter up for success with a personalized chapter outreach visit from APhA! These visits are designed to energize your chapter, strengthen your leadership team, and highlight the incredible value of APhA membership.

During the visit, an APhA–ASP national officer or APhA staff member will:

- Meet with your executive board or committee
- Present to your general body on the benefits of APhA membership
- Meet with chapter advisors

Chapters that have hosted a visit in the past have seen boosts in both participation and membership. Don't miss this opportunity for direct support for your chapter operation and activities—request your visit today!

MRM Interest Session Webinar

Midyear Regional Meeting (MRM) is right around the corner on November 7–9! Whether your chapter members plan to attend on-site in Washington, DC, on campus at a chapter watch party, or virtually from wherever they are, MRM is a powerful opportunity to network and grow professionally.

To help you get ready, the MRM coordinators are hosting an MRM Interest Session on Tuesday, September 10, at 8:00 pm ET.

This session will include:

- An overview of logistics for the weekend
- Key resources to support your chapter
- A focused brainstorming activity
- Suggested next steps in the planning process

We strongly encourage each chapter to designate an MRM liaison and have them attend this session to help lead your chapter's involvement. Don't miss out on this chance to prepare for one of the most impactful events of the year! Register for the session [here](#).
